CANGGU

THE PLACE TO BE...

Canggu is central and can be reached from the airport by taxi in an hour. Due to the central location you can make great day trips from here. And there is a lot to experience here too. Here you book yourself in small guesthouses or homestays. These have an average of 5-10 private rooms with a swimming pool. There are super delicious and cheap restaurants in the area as well.

NUSA PENIDA

In total, there are three Nusa Islands (Nusa Penida / Nusa Lembongan / Nusa Ceningan) - they belong to Bali and can be reached from mainland Bali in about 40 minutes by boat. Nusa Penida is very original and scenic really worth seeing. There is only one narrow "street" that leads around the island.

GOOD TO KNOW...

DRIVING SCOOTER

A scooter can be rented for about 3€ per day and you don't need an international driver's license. Of course it is cheaper, if you rent the scooter directly monthly. When driving a scooter, always make sure that you do not hold a cell phone in your hand, otherwise it can happen that it is stolen while passing by. General Handbags and valuables when driving best in the "trunk" of the scooter pack.

Please make sure that you always wear a helmet!!!

The police in Bali are corrupt, means: they like to stop tourists and give you any stupid reason - in any case down the price.

VISA

If you just want to go on holiday less than 30 days you can ...

If you want to stay longer than 30 days you have to get the VISA-ON-ARRIVAL when you arrive at the airport in Denpasar, Bali - there is a special booth and you have to pay 35\$ cash. Few days before the first 30 days are off, you have to get an agent and he will extend it. You have to drive to the immigration office in Jimbaran and get fingerprints and a photo. After this you can stay another 30 days. After 60 days you have to leave the country for sure. You can also get a SOCIAL VISA and you can stay for 6 month without leaving the country, but you need a local person to adherence for you. I can send you the contact of my visa agency in Bali if you want.

GO-JEK

... just the best app in the world!

Once you land in Bali, download the app "Go-Jek". With the app you can not only deliver food from all kinds of restaurants to your accommodation - it is also perfect to use as a taxi. Here you can choose whether you want to go somewhere with a go-jek rider by scooter, but also order a go-jek taxi. The advantage is that you get directly displayed how much you have to pay.

SIM CARD

The best way to buy an Indonesian sim card is at the airport terminal. There are 2 providers: Telekomsel & XL. Actually it does not matter which provider you choose, both have good network and are cheap. For a SIM card for 4 weeks you pay, depending on how much GB you need, only a few euros.

AIRPORT PICK-UP

At the airport there are around 50-100 Bluebird taxi drivers (no joke) and offer you overpriced taxi rides. I have a very reliable Bali driver, who can pick you up directly at the terminal with a sign. His name is FRIDAY (just say you are a friend of Bini) - just write him a Whats App message and ask if he can pick you up at the airport. You can also ask him if he drives you around the island for day trips, etc. - he's a really nice and funny guy and I would always recommend him 100%.
